

TECHNICAL DATA SHEET

CERAMIC SPRAY SEALANT

FEATURE:

An advanced water-based polymer sealant containing UV inhibitors which adds a hydrophobic, self-cleaning, durable layer of protection to all vehicle exterior surfaces.

DIRECTIONS:

- 1) Shake well and either spray directly to the surface or onto a clean microfibre applicator pad.
- 2) For all surfaces application:
 - For dry surfaces: spray product evenly over the surface, remove with a fresh microfiber cloth after 2-3 minutes.
 - For wet surfaces: spray product evenly over the surface, then wash with a high-pressure water gun after 2-3 minutes.

PRECTIONS:

- Keep out of reach of children.
- In case of eye contact please rinse thoroughly with water.
