

TECHNICAL DATA SHEET

CERAMIC CRYSTAL LIQUID WAX

FEATURES:

Ceramic Crystal Liquid Wax is a fully-synthetic, silicon-infused wax. This special formula works outstanding on any paint finish as well as ceramic coating. It provides protection and gloss to your vehicle, restores original shiny colors of car bodies with easy application. The wax gives vehicles a shine like a mirror while protecting against scuffs and scratches. Great performance for hydrophobicity and durable lasting protection.

DIRECTIONS:

1. Wash entire car and dry the car.
2. Shake bottle evenly and take wax onto sponge. Apply thinly and evenly on paint surface.
3. Rub with appropriate pressure to remove swirls and dirt.
4. After half dry, buff with dry soft cloth for finish.

PRECAUTIONS:

- Keep it in cool and dry places, do not expose to heat or store at temperatures above 120°F.
- Keep away from flame and avoid direct sunlight.
- Avoid contact with eyes. In case of eye contact or swallowing, wash with running water immediately and get medical care.
- Keep out of reach of children.
